

Course Outline

This programme allows you to gain a qualification equivalent to 1 GCSE whilst studying a number of aspects related to performance in sport and the sports industry.

What skills/attributes are required for the course?

- An interest in sport and exercise
- Enjoyment in taking part in sport and exercise
- Enjoyment in leading and organising sporting activity
- Self motivated/disciplined
- Good organisation skills to meet deadlines

Can take responsibility for own learning and work independently

The course is delivered through a mixture of teacher led classroom and practical activity. A variety of learning environments are used including the gym, sports hall, sports field, classroom and out of school experiences.

Over the year programme you will be required to complete three modules, which will cover knowledge of the body systems, understanding of the principles of training and the skills required to successfully lead sporting activities.

Students will need to work to deadlines and complete work to a high standard throughout the year. The emphasis is on continuous assessment and this will therefore reflect your overall grade. One of the three units is examined externally via an online exam. The other two are assessed internally through submitted pieces of coursework.

The course allows you to investigate theoretical elements of sport through both a practical and classroom setting and so is not focused directly on your ability to perform.

Within this course, learner can achieve both Level 1 and Level 2 grades, with a target for students being at least a Level 2 Pass grade. Other grades include Merit, Distinction and a Distinction * grade.

BTEC Level 2 Tech Award Structure:

Unit 1 – Understand the body and the supporting technology for sport and activity

In this unit you will:

- A. Investigate the impact of sport and activity on the body systems
- B. Explore common injuries in sport and activity and methods of rehabilitation
